**1. CONTENT & CURRICULUM RELEVANCE**

What teaching objectives of the unit does this resource meet? Revision of Data Protection Act incorporating: security, privacy, data protection and health and safety – interactive quiz.

Which learning objectives does this unit support? Reviewing and evaluation.

What are the strong and weak features of this activity for classroom use? Good interactive activity. However, due to the nature of the activity ie. Revision, knowledge and information is assumed. However, the plus point to this is that it provides instantaneous feedback.

What would teachers need to know in order to use this resource/unit effectively – ie. Where does this fit with in the Dfes standards? It is for: Revision of GCSE and very relevant to unit 11 of Nat Curric.

- Does the resource offer opportunities for differentiation for the brighter as well as less able pupil? No opportunities for differentiation. Good activity for checking ability and knowledge learnt for all levels in class.

Which curriculum topics will it support? Revision of Data Protection Act incorporating: security, privacy, data protection and health and safety – interactive quiz

Is it a single lesson idea or activity, or is it linked as part of a set? Single lesson, but fun activity and can be done at any time. Also it personalises the questions, which assists/encourages learning capability of each student.

Is the classroom information appropriate to classrooms of the target age group and does it give enough information about the activities suggested? N/A

Are there any resources provided for use with pupils? The quiz.

Is the information structured to support learning e.g. in topics or as groups? Self testing/individual learning.

Is the information structured as a succession of developing ideas, as opposed to randomly linked material? N/A

Are there underlying values it reflects? Green issues, British views, gender, ethnicity.  
Does the title contain material which may be morally or ethically unsuitable for some groups?  
If so give details. Yes - Revision of Data Protection Act incorporating: security, privacy, data protection and health & safety, moral, ethical and social.

**EASE OF USE:** It is a logical coherent structure. Clear contents and display. Index available, and easy to navigate.
