Ease of use:

- ◆ The site has a logical and coherent structure.
- ◆ Clear displays
- ◆ Linear navigation as the resource is a PowerPoint presentation.

Content:

- ◆ Information is both accurate and effective in relation to strand 14 of the Schemes of work for Key Stage 3, “Global communication: negotiating and transferring data”.
- ◆ For more efficient use a working script should have been provided, rather than the simple notes on content which accompany the presentation.

Design and presentation:

- ◆ The presentation has a very simple design and clear presentation but is lacking in any real originality.
- ◆ There is no video and only limited use of simple line diagrams and graphics.
- ◆ The presentation incorporates only simple ‘click and reveal’ interactivity.
