

## Evaluating Web Resources. By Khalida and Azar

<b>Name of site:</b>	Webwise: an internet resource for teachers	<b>URL</b> (site address):	<a href="http://www.ambleside.schoolzone.co.uk/webwise/index.htm">http://www.ambleside.schoolzone.co.uk/webwise/index.htm</a>
----------------------	--	----------------------------	---

<b>Subject/Curriculum Area</b>	Unit 9	<b>Age Range:</b>	11 – 14
<b>And relevance:</b>			

This is another site we found very useful for the above unit. It was easy to access, very clear and very informative. The links were all relevant to the subject area. It contained useful material for web designing using the basic packages and applications which are available in most schools (i.e. Word, Netscape Composer). The material was written for KS2 pupils but could be used to support this unit at KS3, although extension work would need to be added for the more able students. The design and presentation was very good i.e. it was very visual and easy to follow. We felt that the site could have engaged the pupils more effectively by providing more activities

**Interactive features: HIGH**
