

Task 2: Making the computer accessible

Windows has a variety of options that can be set to increase the accessibility of computers for people with a variety of physical impairments.

The options can be found at: Start/Settings/Control Panels/Accessibility Options

Your task is to explore each of these options in turn and suggest one example of where it may be of use in your classroom.

| Accessibility Option | Example of use |
|----------------------|----------------|
| Keyboard: StickyKeys | |
| Keyboard: FilterKeys | |
| Keyboard: ToggleKeys | |
| | |
| Sound: SoundSentry | |
| Sound: ShowSounds | |
| | |
| Mouse: MouseKeys | |
